

I am a passionate, self-taught tech leader.
I care about the big picture and solving people's problems.

EXPERIENCE

2019 current	Nuxt.js. Core team member.	One of the five core team members responsible for setting direction and maintaining the development of this Vue.js framework.
2019 current	Parent Scheme. CTO & co-founder.	HR-tech SaaS startup. Designed the app architecture, drove product development, and coded the full stack (Laravel, Nuxt, CubeJS, Node.js running on AWS, Digital Ocean Kubernetes and Vercel). Recruited and trained a team of three other developers, mentoring and providing direction - alongside product management and line managing two designers and an animator.
2015 2019	Concision. CEO & co-founder.	Grew this digital agency from scratch, building a reputation in the North East of England for our big-picture, message-focused approach. Multi-disciplinary job role, including business development, developing marketing strategies for clients, content writing and editing, logo and website design, build and deployment.
2010 2015	St Mark's Rawcliffe. Associate vicar.	Among other things, designed and built brand and tech stack for the church's digital presence. Led and managed a team of volunteers involved in the community and set overall vision.
1998 2002	Roebuck Software. Freelance.	Coded desktop applications and websites, including the showcase for China Millennium Productions in New York Fashion Week.
